

nilper

General Catalogue 2024-2025

Nilper Furniture Collection

Elegant Design & Outstanding Quality

Introduction and Background

- The start of Nilper coincides with rising of PC into the market, and while relying on the mold making a specialty of its owner and his vision to the future. Nilper started its journey into office chairs in 1994.
- During its rapid growth, Nilper had to go through a couple of transformations. It had to change its production site several times until it moved to its current location with an area of 40000m². Also, as Nilper grew, it faced the shortcomings of traditional management methods. Hence it went through a drastic change and introduced strategic and systematic management into its system and acquired ISO 9001 standard.
- Because of Nilper's commitment to quality, customer satisfaction, and due to the inability of its contractors to manufacturing based on Nilper's standards, the company decided to insource a wide range of its activities in order to achieve its desired result. During this process, the latest machinery and technology was procured and a cutting edge production line was installed with equipped facilities.
- The R&D department has been created by the company to make a close relationship with marketing, sales, after-sales, and sales engineering departments in order to transfer market feedback to designers. Furthermore, for achieving harmony between the factory and the market requirements, it plays an important role.
- Today after many efforts and dedication that Nilper's staff and management have put into the company, Nilper is at the top of the related industry in the region. The company produces more than 100 different products in several categories such as office, kids, restaurant, industrial, training chairs, and home furnitures.
- Also, it has achieved more than 200 sales network throughout the country, which is supported by aftersales dept. In addition to the above fulfillments, Nilper has a prime office in Iran and extend its business to other middle eastern countries like Qatar, Oman, Syria, Russia, Iraq, Azerbaijan, Georgia, Armenia, Canada, China, Algeria, and Afghanistan.
